

POLLSTER RANKINGS

PRE-ELECTION MEMBERS OF PARLIAMENT SURVEY - 2026

We as Pollster Rankings have embarked on a nationwide parliamentary performance survey covering all the 290 Constituencies in Kenya to assess how Members of Parliament are performing in the eyes of the electorate they represent.

The survey seeks to establish the level of public satisfaction, approval and confidence that constituents have in their respective Members of Parliament and to determine how the 290 MPs rank based on the constituents' assessment on their performance.

Respondents were drawn from all the 290 constituencies, with 2,032 respondents interviewed in each constituency, providing a total national sample of 580,280 respondents.

The survey was conducted at a 95% confidence level with the findings providing a comprehensive picture of public perception and approval of parliamentary leadership across Kenya.

The ranking assesses:

- Overall approval of the MP
- Constituents satisfaction with performance
- Accessibility and responsiveness
- Development and representation
- Delivery on campaign and constituency commitments
- Overall confidence in the MP
